JOBS & WAGES

Alamo region employment rose by nearly 17 percent between 2010 and 2020, about on par with statewide growth. The most concentrated regional industries include jobs in pipeline transportation of natural gas, support activities for mining and national security. These industries have a high location quotient (LQ). An LQ of 1.25 or higher indicates the industry is highly concentrated and unique to the regional economy. The warehousing and storage industry led regional job growth, increasing by 142 percent between 2015 and 2020.
